

BK-KVS SLEEVES

Our sleeves knitted with HPPE fibre are highly effective in preventing cut & abrasion injuries. The HPPE fibre composition is low-tinting, which makes these sleeves an excellent choice for industries where product protection and cleanliness is important.

FEATURES

- Sleeves are soft and can stretch to fit most arm sizes
- Thin and comfortable 18 g construction
- Provide extra coverage on the wrist and forearm – perfectly to be combined with cut protection gloves
- HPPE is softer, more comfortable, and with greater tensile strength than aramide fibers
- Free from Glass-Fibre
- Black colour is well suited for working in dirty environments and allows for longer service life
- Forearm protection for handling abrasive or sharp objects
- Available in 18" / 45cm Long

APPLICATIONS

- Handling of metal sheets, glass, blades, paper & cardboard, steel bars & sheets and cables
- Knife Sharpening
- Finishing in Plastics Industry
- Mechanical Engineering, Machining
- Automotive Industry
- EV Industry
- Foundry
- Industry
- Manufacturing
- Mechanical Industry
- Metallurgy and Steel Works

STANDARDS

EN 388:2016: 2X23C
ANSI (cut): A3
ANSI Puncture: 4
ANSI Abrasion (ASTM D3389-05): A3
