# GRIP YOU CAN TRUST. COMFORT YOU CAN FEEL.

Lightweight, breathable, and built-to-last, G-Tek® XTR gloves are designed for comfort and all-day performance.

A proprietary micro-foam textured coating provides reliable grip and control in dry, wet, and oily conditions so you can handle whatever the job throws at you.

## CUT PROTECTION THAT FEELS BETTER.

XREY™ coreless fibre delivers high cut resistance with an exceptional strength-to-weight ratio, offering reliable protection without the bulk.

It's soft, breathable, and completely free from fibreglass, steel, and basalt, eliminating irritation and helps to reduce CO<sub>2</sub> emissions.

XREY™ coreless fibre makes gloves stronger, more comfortable, and better suited for all-day wear in demanding environments.
