 - Cups: ABS/Nylon/PU Foam
 - Keypad Material: Silicone

APPLICATIONS:

Mining, Oil and Gas, Construction, Trades and Manufacturing

AVAILABLE IN:

PRODUCT CODE	BOX QTY	CTN QTY
263-EEM110-ANZ	1	20

CARE INSTRUCTIONS:

- It is recommended that cushion should be wiped clean at the end of use each day.
- Cushions and foam liners should be washed with warm soapy water at least once a week. This product may be adversely affected by certain cleaning chemical substances and therefore only warm soapy water is recommended.
- Earmuffs, and in particular cushions may deteriorate over a period through normal use. These should be inspected frequently for cracking and degradation.
- Any fitting of hygiene covers to the cushions may affect the acoustic performance.
